Re: Shale gas development and exploration in New Brunswick

Dear Mr. Northrup,

Thank you for your letter of May 31st 2012 concerning shale gas development and exploration in New Brunswick.

We would like to inform you that during our Annual General Meeting in April 2013, our members passed a motion to support the recommendations and report of Dr. Eilish Cleary, Chief Medical Officer of Health, concerning shale gas development in New Brunswick.

We maintain our position asking for a moratorium on shale gas development in New Brunswick, and we hope to see a resolution in this matter.

Sincerely,

Anick Pelletier
President
